

## Soaring

Donated by Allison S

*Small - 12 inch butterfly*

*It has been a pleasure to participate in the Take Flight fundraiser for my second consecutive year. This time I designed two butterflies; a medium piece titled "Selva" and a small piece titled "Soaring".*

*"Soaring" was inspired by the atmospheric view over the clouds, as you would see from an airplane window. The deliberate linear horizon contrasts the back side's vertical free-form abstract design using a similar color palette.*

*Born and raised in St. Petersburg Florida, my artwork is greatly influenced by beautiful skies, the ocean and nature. I earned my BFA in illustration from Ringling College of Art & Design and my MEd at Arizona State University.*

*My artwork has been featured for almost 15 years at the Art Expo Gallery on St. Petersburg Beach and in group exhibitions in Lima, Peru and Phoenix, Arizona. I offer commissioned work through social*

*media. Most works are oil or mixed media on canvas, sizes range from over 4 feet to 10 inches.*
